### 3 BUSINESS REVIEW AND OUTLOOK

In the first half of 2025, the medical industry is in a period of interweaving between the deepening iteration of the policy system and the upgrading of service demand structure. On the one hand, the reform of medical insurance payment methods continues to advance in depth, the competitive situation in the regional medical market is increasingly intensified, and the industry ecology is accelerating restructuring and differentiation. On the other hand, with the changes in the national population structure and the improvement of health awareness, the social demand for mental health care and elderly medical services is also rising, showing significant characteristics of diversification, quality-oriented and stratification. Facing the complex and changing external environment, the Group has always adhered to the original intention of medical practitioners, focused on the stable operation of the two main businesses of mental health care and elderly medical care, relied on refined management and innovation in service models, consolidated business resilience, and strived to build Kangning's characteristic core competitiveness, aiming to move forward steadily in the wave of industry changes.

In the first half of 2025, the Group recorded a revenue from operation of RMB738.6 million, a decrease of 10.9% compared with the same period last year. Among them, the revenue from operating its owned hospitals reached RMB690.9 million, a decrease of 9.8% compared with the same period last year. During the Reporting Period, the Group achieved a net profit attributable to Shareholders of the Company of RMB36.5 million, a decrease of 28.0% compared with the same period last year. As of June 30, 2025, the number of the Group's owned hospitals increased to 33 (December 31, 2024: 32), including an independently established internet hospital (Yining Psychology Internet Hospital), and the number of operating beds increased to 11,818 (December 31, 2024: 11,508).

#### *Pediatric Healthcare in*

In April 2025, the state issued the Action Plan for “Year of Pediatric and Mental Health Services” (2025-2027) (《“兒科和精神衛生服務年”行動方案(2025-2027年)》), which clearly put forward key tasks for mental health and mental health services, requiring the strengthening of the construction of the mental health service system, the improvement of the level of primary mental health services, and the formulation of corresponding measures such as the training of psychiatric professionals, various forms of diagnosis and treatment, and the increase of mental health science popularization, further expanding the market space of the Group. In the first half of 2025, the Group had a total of 25 owned hospitals whose main business was psychiatric healthcare services. Despite certain pressure on revenue and profit, the overall business performance was stable. During the Reporting Period, the operation of the Group's owned psychiatric hospitals is as follows:
